**DETAILED ACTION**

**Drawings**

The drawings have been approved by the examiner.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given by Steven D Thomas Jr. (Registration Number 64,421) on 11 December 2009.

The application has been amended as follows:

**Title of the Invention will be changed to:**

System And Method For Providing Automated Value Estimates Of Properties As Of A Specified Previous Time Period

**Claim 18**

A computer-implemented method for providing an automated value estimate of a property as of a previous time period, the computer-implemented method comprising  
the steps performed by a computer of:

determining, ~~using a computing platform~~, historical valuation data reflecting automated value estimates of properties, the automated value estimates corresponding to values of the properties during a plurality of previous time periods;

storing the historical valuation data in a database;

receiving a request for an automated value estimate of a property as of a specified one of the previous time periods period, the request identifying the property and the specified one of the previous time periods period;

searching the database for the historical valuation data of the property identified by the request;

retrieving the historical valuation data from the database reflecting the automated value estimate of the property during the specified one of the previous time periods period; and

providing, in response to the request, the automated value estimate of the property as of the specified one of the previous time periods period.

**Claim 24**

A system for providing an automated value estimate of a property as of a previous time period, the system comprising:

at least one memory comprising computer-executable instructions to:

determine historical valuation data reflecting automated value estimates of properties, the automated value estimates corresponding to values of the properties during a plurality of previous time periods;

store the historical valuation data in a database;

receive a request for an automated value estimate of a property as of [[a]] one specified previous time period from among the previous time periods, the request identifying the property and the one specified previous time period;

search the database for the historical valuation data of the property identified by the request;

retrieve the historical valuation data from the database reflecting the automated value estimate of the property during the one specified previous time period; and

provide, in response to the request, the automated value estimate of the property as of the one specified previous time period, and

at least one data processor that executes the instructions.

**Claim 30**

A computer-readable medium comprising computer-executable code for causing a processor to execute a method for providing an automated value estimate of a property as of a previous time period, the method comprising:

determining, ~~using a computing platform~~, historical valuation data reflecting automated value estimates of properties, the automated value estimates corresponding to values of the properties during a plurality of previous time periods;

storing the historical valuation data in a database;

receiving a request for an automated value estimate of a property as of a specified one of the previous time periods period, the request identifying the property and the specified one of the previous time periods period;

searching the database for the historical valuation data of the property identified by the request;

retrieving the historical valuation data from the database reflecting the automated value estimate of the property during the specified one of the previous time periods period; and

providing, in response to the request, the automated value estimate of the property as of the specified one of the previous time periods period.

***REASONS FOR ALLOWANCE***

**The following is an examiner's statement of reasons for allowance:**

Applicant's claimed invention is directed to an Automated Value Estimate system and method which provides valuation of a property as of a previous time period using the data as of the previous time. Applicant's invention determines historical valuation data reflecting automated value estimates of properties during plurality of previous time periods and stores the determined historical valuation of the properties in a database. When a request is received for an automated value estimate of a property as of a specified one of the previous time periods as specified by the requester, said system searches the database for the historical valuation data of the property identified by the request, retrieves the historical valuation data from the database reflecting the automated value estimate of the property during the specified previous time period, and provides the retrieved value estimate of the property to the user.

**Prior art does not teach** concept for:

determining historical valuation data reflecting automated value estimates of properties corresponding to values of the properties during a plurality of previous time periods;

receiving a request for an automated value estimate of a property as of a specified one of the previous time periods;

providing, in response to the request, the automated value estimate of the property as of the specified one of the previous time periods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
